# Co-Pilots

## Why should you be a Co-Pilot?

You can earn money while teaming with a like-minded company. We believe as you get to know more about our company you will enjoy the partnership. Our goal is to preserve rural American histories by connecting people with their heritage and helping them share their personal histories.

## What does a Co-Pilot do?

We spend every waking moment listening to stories and telling ours. By reaching your audience you will help us do just that. **Co-Pilots** place Vintage Aerial approved content on their blog or website to drive traffic to VintageAerial.com.

## How do you benefit?

When someone finds Vintage Aerial from your blog or website and purchases a photo we track that sale using your unique URL. When the photo is shipped, completing the sale, we record your referral fee. We then aggregate referral fees and pay monthly. Each sale will generate \$20. (Details outlined in the "CoPilot agreement.")

## What is our role?

We supply you with Vintage Aerial approved blog banners and badges and a unique URL. We track all subsequent sales, process all payments and keep you up-to-date on any purchases. We also put all of our energy into creating a wonderful experience for our customers and hold ourselves to the highest standards in all aspects of our company.

## How do you get started?

Glad you asked. Just go to [www.vintageaerial.com/copilots/apply](http://www.vintageaerial.com/copilots/apply) to fill out our application. Then we will be in touch with you to help you get started. Please feel free to contact Sam Melden with questions at any time.
